New York Stocks. BRANCH-10 West Tenth St., Anderson, Ind. Long Distance Telephone, 1375.

HOARDING

HELPS TO WEAKEN THE STOCK LIST ON NEW YORK 'CHANGE.

of Foreign Orders Gave Bears Courage-Local Markets Show Little Change.

At New York, yesterday, money on cal was easy at 11262 per cent.; last loan 2; closed at 2.

Total sales of stocks were 153,308 shares, including the following: American Tobacco. 7,700; American Sugar, 36,000; Burlington & Quincy, 11,400; Chicago Gas, 9,100; Louisville & Nashville, 5,500; Manhattan Consolidated, 6,000; Rock Island, 6,300; St. Paul, 21,-800; Tennessee Coal and Iron, 4,100; Western Union, 4,500; Wheeling & Lake Erie, 6,100;

silver certificates, \$25,000. The speculative temper underwent a change in Wall street yesterday, and the movement was in sharp contrast to the strength that had characterized the close executing of realizing orders and hammering by the bears, induced by the absence of London buying orders in this market, a firmer condition of the foreign exchanges, engagements of gold for export and disturbing rumors of the beginning of gold hoarding. The volume of business was not large, but the dealings were fairly well distributed, with Sugar leading in the industrials and St. Paul in the railroads in point of activity. The course of prices was almost uninterruptedly downward, and the declines were material in a number of instances. The industrials were the objective points of attack. The initial prices were slightly higher under the influence of a firm market for Americans in London. A reactionary movement set in almost at the outset which was most pronounced in the industrials and grangers, the losses extending to 1 per cent. in Burlington, % in Chicago Gas and % in Sugar. The early selling movement soon abated and a steadier tone prevailed, but the market became almost stagnant on a moderate rally from the extreme low points. Shortly after 11 o'clock, however, the bears redoubled their efforts against the industrials and succeeded in forcing down Leather pre-ferred 24, Chicago Gas 24 and General Electric 14 per cent. The general list displayed sympathetic weakness, and declines were scored extending to 21/4 per cent. in Northwest. On the down grade an increase in activity was noted. The downward movement was continued after midday on the unfavorable rumors elsewhere referred to. Another interval of duliness and comparative steadiness occurred at the low level until the last hogr, when renewed pressure against Sugar and a few other | \$563,884. stocks caused concessions to the lowest of the day. The market closed weak at general losses extending to 21/2 per cent. in Sugar and averaging 1611/2 per cent. in the

more prominent railroad stocks. Railway bonds displayed an easier tendency in sympathy with the recessions in stocks, but the losses were mainly fractional. The sales were \$588,000. In government bonds the new fours were decidedly weak, reacting 1/2 per cent., to 11512, on sales of \$53,000. The other issues,

Room 13 Board of Trade, shows the range of

however, held steady. The following table, prepared by L. W. Louis,

VIEWS OF HENRY CLEWS. In reviewing the conditions in Wall en the country to understand that the discontent and the baseless sectionalism of of the parties in the election will be the open abettors of revolutionary tendencles will only tend to swell the overwhelming these malcontent elements what is their real standing among the American people. "The spirit of the Chicago convention is an affront to every conservative and patriotic sentiment in the heart of our peo-ple. It is the sort of temper out of which comes lawlessness, conspiracy and revolution. The classes whom the planks are intended to inflame know nothing of the real ends of their leaders. The more inflaming and revolutionary the party programme is better it suits the militant mood into which these unreflecting masses have been worked. There is no mistaking the real tactics of the party leaders. Conscious of

the orderly supporters of sound money into surrender. Their game is transparent and well understood and excites no concern among the classes against whom it is directed. They stand unmoved upon the foundation of common sense and common honesty which has never failed to shield the country from the shock of civil disor the threats of demagogic leaders, the more ready our people have ever been to come to the rescue, and the spirit and the dictation of the Chicago convention were just the incentives needed to rally the friends of American principles and institu-tions for overwhelming defense. Hence the public readily perceive that the Democratconvention has made certain the election of the party of sound money and honest finance in November. In this sense the political situation is both clearer and safer to-day than it was a week ago and confidence is more solid. "The greenback craze twenty years ago had many features in common with the silver furor of the present day. It appealed

to the weak spots in human nature, and its crafty managers played upon the feelings and prejudices of the workingman, and the poor artisans, and the skilled laborers particularly, who are very easily per-Chicago Grain and Provisions. suaded that they are greatly underpaid for their services. The promises of abundance of money and higher wages with employment for everybody willing to work, were the alluring baits held out to every man who had a vote. How the flat money was to be got into circulation after it left the printing press was a part of the subject too remote for inquiry, or was regarded as an 11 and 13 WEST PEARL STREET. impertinent question presumably put by a hard-money crank. The idea of something for nothing always appeals forcibly to the imagination of those who have had to struggle for every dollar they have ob-

"So far as the flat money is concerned. the enterprise of the old greenbackers had some points of superiority to that of the modern silverites. In the latter case it is part flat and part intrinsic value; and the solons of the modern silverites propose to create an inverted pyramid, and expect the lower part to sustain the en-tire weight of the top-heavy structure. The scheme of the old greenbacker was more scientific; for he made the Nation at large the immense base of his pyramid, leaving illimitable space for its height even to the moon and the stars.

"There are some interesting points in the parallel between the financial managers. the men with the boodle who ran the greenback Utopia, and those who are now supplying the sinews of war for the promised land of silver in prospect. Peter Prime mercantile paper, 405½ per cent.

Sterling exchange was steady, with actual business in bankers' bills at \$4.8804.88¼ for demand and \$4.8704.87¼ for sixty days; posted rates, \$4.8804.89; commercial bills, \$1.86½.

Silver certificates, 68%069c. At London bar silver closed at 21.7-16d per ounce.

Cooper was easy of approach and had a ready ear for every tale of woe. Upon this weakness the crafty tricksters, the cafty tricksters, the needy agents who attended to his canvass, played with never-failing success. It was pitiable to see, as an eyewitness of some of those scenes during the greenback campaign has told me, the grand old man being fleeced by those political harpies through the relation of some story of distress in the West, until the check was ess in the West, until the check was forthcoming to relieve it. Jones, of Nevada, I am told, is very similar in his yielding propensities to Peter Cooper, and will give up quite as easily, with this difference that he may become utterly oblivious afterwards as to where it has gone, or to whom he has given it. It is said that Silver King Stewart is almost of the same stripe as his royal brother Jones. allude to these facts in no unfriendly spirit, but simply to show the enticing field that is open to these modern adventurers in politics; these parasites of the silver kings whose great anxiety is to make use of the unlimited resources of the millionaires for their selfish purposes. "But, seriously speaking, though the sil-

ver movement has cut a broader swath of the preceding week. This was due to the | than the greenback adventure, yet when tion, it will be found that it has very little more of the quality of durability in it than the older scheme of inflation. The solid educational campaign tried the old scheme, and found it sadly wanting. The balloon collapsed long before November. 1876; and the scheming adventurers retired into private life, leaving their candidates in the consomme, with the memory of a few months' excitement and sad wailings over departed cash. This historic analogy in finance and politics will, in all probability, preserve its parallelism to the end of the chapter. McKinley will undoubtedly be elected, in which event the gold standard will be maintained; our international credit will be sustained, our securities will find strong holders both at home and abroad, panic will be averted. and a boom will be inaugurated, not only in Wall street, but throughout our broad land, with which no old-time revival can compare in point of prosperity."

Monday's Bank Clearings.

At Chicago-Clearings, \$14.077,000. Money on call was easy at 196 per cent.; on time, 6 per cent. New York exchange, 50c discount. Foreign exchange steady; demand, \$4.88; sixty days, At Memphis-Clearings, \$330,737; balances, \$162,-

At New Orleans-Clearings, \$760,833. At New York-Clearings, \$69,030,589; balances, At Boston-Clearings, \$11,887,154; balances, At Philadelphia-Clearings, \$7,422,420; balances,

At Baltimore-Clearings, \$2,000,219; balances, \$324,898. At St. Louis-Clearings, \$4,278,795; balances, At Cincinnati-Clearings, \$2,681,350.

LOCAL GRAIN AND PRODUCE. Trade Quiet, with but Few Fluctua-

tions in Values. The week opens with trade quiet in all lines and few changes in values. Grocery and dry goods markets are both steady and firm. Monday. Fruits and vegetables of all kinds are selling at lower prices than in many years and grades of corn advanced 1/1c and oats advanced 1/2c. Track bids ruled as follows: Wheat-No. 2 red, 5314c; No. 3 red, 5014@511/2c; wagon wheat, 54c. Corn-No. 1 white, 27c; No. 2 white, 27c; No. 3 white, 27c; No. 2 white mixed, 26c; No. 3 white mixed, 25½c; No. 2 yellow, 25½c; No. 3 yellow, 25½c; No. 3 mixed,

the bicycle races to take place Thursday night at Broad Ripple. It is expected that this number will be increased to thirty or more before time for the races to begin, worked and sprinkled until it is in good condition. There will be enough street cars to carry the crowd. Beginning at 6 o'clock minute schedule to the park at Broad Ripole. There will be four races, the prizes for which amount to about \$150, and then a final for the winners of these four

WHEAT TURNED WEAKER

DISAPPOINTING WORLD'S VISIBLE FIGURES CAUSED DECLINE.

Other Grain Markets Unchanged, but Weakness in Provisions Was Pronounced in All Lines.

a decidedly bullish wheat market was turned weak by the disappointing world's wheat, 18,600 bu; corn, 4,000 bu; oats, 10,000 bu. visible figures, and the net result of the day's trading in September was a loss of 14@%c. Corn and oats showed unchanged prices. Provisions had another slump and

declined 74@15c. There was a fair trade in wheat, considering the dullness of last week, the market early exhibiting signs of a revival, but later in the session the market lapsed back into a state of quietude. The early news was all favorable for better prices. Liverpool came 1/2d higher, the decrease in the amount on ocean passage was 2,240,000 bushels, and the world's shipments were also unexpectedly light. The indications were that the aggregate would be less than 5,500,000 bushels, against 7,265,000 bushels a week ago. In addition there were many alarming reports of increasing crop damage in the Northwest. The short interest got considerably alarmed at the outlook, and there was generous covering and also good buying for the long account, under which the price was advanced %c above Saturday's close, but the advance started active realizing of profits and also selling for the short account, under which the market turned weak. The downward course was accelerated by the posting of the visible supply, which showed an increase of 21,000 bushels, where a decrease of 500,000 bushels or more had been expected and where there had been a decrease of 1,222,-000 bushels the same week last year. The of New York stocks was also a disappoint- 140,655 bris; runs, 177,536 bris. ment and one of the main factors in producing the weakness which ruled to the close. September opened 1/2c higher at 561/2c, advanced to 56%c, then broke and declined steadily to 55%c, closing easy at 55%@55%c.
There was a pretty fair trade in corn. The tone early was higher, the firmness and heavy local shipments, the strength in wheat being also a factor. The advance was met by free selling by elevator men about 4c higher at 271/2/277%c, advanced to Oats were active. The favorable crop reports made a firm opening and an advance

followed on considerable short. September opened at 161/sc, advanced to 16%c, declined to and closed steady at 15%c. The provision market opened rather steady at about unchanged figures, caused by the live stock market being firm. Later, as grain markets declined, a weaker feeling was developed and prices slid off. Trading was only moderatively active. September pork closed 15c lower at \$6.571/2; September lard, .10c lower at 3.70c; September ribs. .71/2c lower at 3.60c.

Estimates for Tuesday-Wheat, 410 cars; corn, 510; oats, 205; hogs, 14,000 head. Leading futures ranged as follows:
